WT Patterson—Arkansas, July 2003

In 20 days or less I dropped my total cholesterol 57 points—from 280 to 223. My blood sugar is down from 153 to 77, and my blood pressure is stays around 118/70 from 140/70. I drink the tea and also take the pills. This is the best thing I've ever run in to.

David O'Leary—Connecticut, May 2001

I have noticed a difference taking your Jiaogulan Herbal Pills. My body feels more flexible, and I sleep like a rock! Also I have noticed that a pesky rash that comes and goes on my right hip is gone! Wow! I have baffled the doctors with that and have tried lots of other natural remedies and creams, to no avail until now. I will be a repeat customer!!!

Donna Vaccariello—Ohio, June 2002

And now, I'm also taking jiaogulan. I had my thyroid taken out—maybe 5 or 10% is left. As a result, I've been very tired even though I take thyroid medicine. After taking jiaogulan capsules two once day, now I have all the energy I need.

Catherine Okita—Jin Shin Jyutsu practitioner, Jiaogulan Tea vendor, March 2002

I have a friend who I sold the jiaogulan premium tea to, who had terrible debilitating migraine headaches every weekend. She also had many sunspots on her arms and hands from overexposure to the sun. After drinking 2 cups a day of the tea, over the period of a month the migraines completely subsided and her arms are now a healthy pink, without any of the sunspots.
